EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Katherine Hamer on 12-20-06.

The application has been amended as follows:

Please see the attached amendment listing a clean copy of claims (4 pages), labeled "REQUESTED"

In the specification:

On page 1, line 1 insert "This application claims the benefit of U.S. Provisional application No. 60/160,210 filed on 10/19/1999."

The following is an examiner's statement of reasons for allowance:

Instant claims are allowable because the prior art of record does not teach or fairly suggest the claimed oral sustained release composition of isovaleric acid and its derivatives. Applicants have shown that the claimed composition comprising a core containing the active agent and a gelling agent, which is further coated with the specific polymeric film made of a mixture of ethylcellulose and hydroxypropylmethylcellulose produces drug dissolution for a longer period of time.
